Please Note: The positions listed below are not current job openings.

Librarian
This position handles reference and information requests, acquisitions, cataloging, scripting, managing the library website, creating new web portals, processing physical and digital materials including books, manuscripts, maker devices, electronic devices, and more.

IT Help Desk Specialist
In the CF (Computation Facility), this position oversees the management and day-to-day operations of managed UNIX and Windows desktop systems, self-managed laptops, servers, internal and external network connectivity, printing, webcasting, AV, security, and email.

Media Senior Technician
The technician is responsible for setting up and running two high profile classes in Sanders Theater at Harvard. He/she loads the equipment, sets up and sound checks the microphones, sets up a laptop and projection and records the classes.

Media Supervisor
This position is responsible for supervising part-time staff as well as the maintenance of the equipment used to teach in the classrooms at Harvard including data projectors, computers, screens, audio and video recordings and reinforcements.

Research Assistant
You will learn about the death of massive stars - supernovae. The research assistant studies the different types of supernova and uses sound to classify the events. Curiosity is required!

Science Administrator
This position oversees programs for undergraduate and graduate students. More specifically, the administrator is responsible for human resource management, strategic planning, recruiting, travel arrangements, and budgeting.

Science Demonstrator
The Science Demonstrator is responsible for maintaining demonstration apparatus and equipment, documenting techniques, and occasionally developing new demonstrations and experiments.

Scientist
Being part of a national space mission involves solving mathematical equations using a variety of numerical techniques as well as designing optics, analyzing data sets, instrument calibration, planning operations, and creating software.
