2024 SUMMER ASTRONOMY REU
Center for Astrophysics | Harvard & Smithsonian

National Science Foundation’s Research Experiences for Undergraduates Program at Smithsonian Astrophysical Observatory (SAO)

SAO is once again offering 11 exciting ten-week summer Astronomy research internships through NSF’s REU program. SAO’s Astro REU internships bring students to Cambridge, MA to work on the cutting edge of astrophysics, analyzing data from many of the world’s foremost observatories. Research topics include but are not limited to exoplanets, stellar physics, star formation, black holes, cosmology, galaxies, galaxy evolution...and many others! For more information or to apply online, go to:

https://www.cfa.harvard.edu/opportunities/graduate-undergraduate-programs/reu-summer-intern-program

by: January 31, 2024. Applicants must be undergraduates who are also US citizens or permanent residents. We strongly encourage applications from women and members of underrepresented groups. Our interns will live rent-free in Harvard campus housing and receive a stipend of $700/week. We will also cover all qualifying expenses so interns can attend the AAS meeting in January 2025 to share their research!
