

SAO SUMMER ASTRONOMY REU

Center for Astrophysics | Harvard & Smithsonian

National Science Foundation's
Research Experiences for Undergraduates Program
at Smithsonian Astrophysical Observatory (SAO)

SAO expects to offer 9 exciting ten-week summer Astronomy research internships through NSF's REU program. SAO's Astro REU internships bring students to Cambridge, MA to work on the cutting edge of astrophysics, analyzing data from many of the world's foremost observatories. Research topics include but *are not limited to* **exoplanets, stellar physics, star formation, black holes, cosmology, galaxies, galaxy evolution...**and many others! For more information or to apply online, go to:

<https://www.cfa.harvard.edu/opportunities/graduate-undergraduate-programs/reu-summer-intern-program>

Applications open mid-December.

Apply by: January 31. Applicants must be undergraduates who are also US citizens or permanent residents. Our interns will live rent-free in Harvard campus housing and receive a stipend. We will also cover all qualifying expenses so interns can attend the AAS meeting the following January to share their research!
